

WELLNESS  
BEGINS  
WITH THE  
**WATER**  
**YOU DRINK**

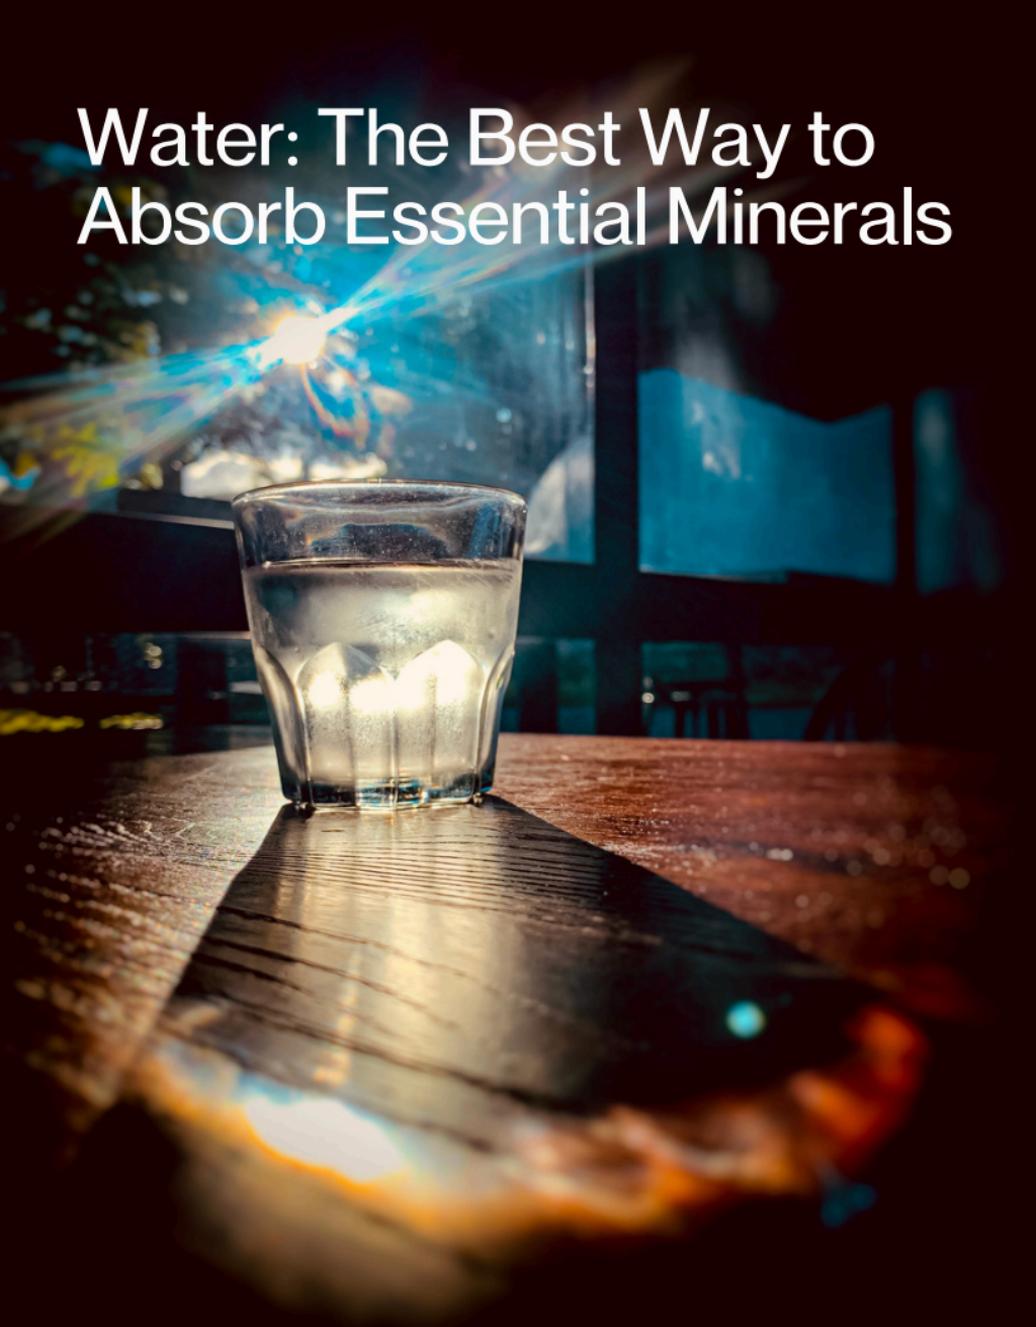

Water is the foundation of all life. It makes up **70% of the human body**, playing a vital role in digestion, circulation, temperature regulation, and detoxification. But not all water is the same. The quality of water we drink directly impacts our health, energy, and longevity.

**Are you drinking the right water?**

# Water: The Best Way to Absorb Essential Minerals

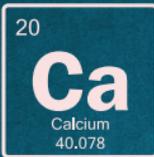

A glass of water sits on a dark wooden table. The background is a bokeh of blue and white lights, suggesting an outdoor night setting. The glass is filled with water and has a few ice cubes. The lighting is dramatic, with the glass and table in the foreground being well-lit against a dark, blurred background.

**Did you know that your body absorbs minerals from **water** more efficiently than from food?**

Unlike food, where minerals need to be broken down and processed, minerals in water are instantly bioavailable, meaning your body can absorb them faster and use them immediately for essential functions. Unfortunately, modern filtration methods strip water of its natural minerals, leaving it lifeless and lacking the vital nutrients your body needs. iLiv solves this problem with its advanced Antioxidant Alkaline Water Filter, enriched with essential minerals that keep your body hydrated and healthy.

# Enjoy Water That Doesn't Just Quench Your Thirst, but Truly Revitalizes You!

If your body is a grand orchestra, then each mineral plays a crucial role in creating the melody of health and vitality. iLiv water is enriched with the following essential minerals:

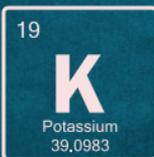

## THE STRENGTH BUILDER

Calcium is crucial in building strong bones and teeth, keeping your heart beating steadily, and supporting muscle movement. Lack of calcium leads to weakness and fatigue.

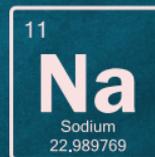

## THE STRESS RELIEVER

After a long, exhausting day, magnesium steps in as your relaxation therapist. It soothes tired muscles, calms your nerves, and helps you get a good night's sleep. It even improves brain function, keeping you sharp and focused.

## THE ENERGY BOOSTER

Ever feel drained and sluggish? That's where potassium comes in. It maintains proper hydration, balances electrolytes, and keeps your muscles and nerves in top shape.

## THE HYDRATION REGULATOR

Sodium is the guardian of hydration, ensuring your body absorbs and retains the right amount of water to keep your cells functioning at peak performance.

# Can Your Water Prevent Diseases? If it's iLiv, YES!

? How does iLiv Water help prevent these diseases?

✓ By removing harmful contaminants, reducing oxidative stress, and restoring essential minerals, iLiv helps the body fight back diseases like:

- ◆ **Heart Disease & High Blood Pressure** – iLiv reduces oxidative stress and enhances blood flow with negative ORP water
- ◆ **Diabetes** – Stabilizes blood sugar by reducing acidity and improving cellular hydration
- ◆ **Cancer** – Removes harmful toxins and neutralizes free radicals that cause DNA damage
- ◆ **Osteoporosis & Arthritis** – Infused with calcium and magnesium, it strengthens bones and joints
- ◆ **Kidney Stones & UTI** – Flushes out impurities while maintaining a healthy pH balance
- ◆ **Alzheimer's & Dementia** – Protects brain cells from oxidative damage, keeping memory sharp

**Switch to  
water that  
heals.  
Drink iLiv.**

# The Closest You'll Get to Natural Spring Water

? **Why do people love drinking natural spring water?**

✓ Because it's **rich in essential minerals, naturally purified, and has a smooth, refreshing taste.**

? **What if you could get that same experience at home?**

✓ **iLiv water is the closest you'll get to natural spring water**—filtered, revitalized, and enriched with essential minerals just like nature intended.

? **What's the secret?**

✓ **Crystal Growth Technology**—a breakthrough purification process that mimics how natural springs infuse water with minerals while filtering out harmful impurities.

**Bring Nature's Purest Hydration Home**

# Water That Gets to Work —Fast

## ? Drinking enough water, but still feeling sluggish?

✓ Your body might not be absorbing it efficiently. Regular water clusters are too large to penetrate cells quickly.

## ? What makes iLiv different?

✓ iLiv reduces water cluster size, allowing hydration to happen faster at a cellular level.

💧 *iLiv restructures water into smaller, more absorbable clusters, ensuring:*

- ✓ Instant hydration for faster recovery and better energy
- ✓ Superior mineral absorption for better health
- ✓ Efficient toxin removal for a lighter, healthier body
- ✓ Smoother taste that feels like drinking from a pure mountain spring

Drink less. Absorb more.  
Hydrate smarter with iLiv.

# Crystal Growth Technology: The Science of Purity

Not all water filters are created equal. While traditional filters only remove impurities, iLiv goes a step further with its Crystal Growth Technology, using elements found in precious gemstones like Ruby and Sapphire to purify and mineralize your drinking water.

## ? How does it work?

✓ By using advanced crystals made with elements of Ruby & Sapphire, iLiv transforms your water into the closest thing to natural spring water.

## ? What are the benefits?

- ✓ Eliminate harmful oxidative compounds that accelerate aging
- ✓ Naturally infuse water with essential minerals like calcium & magnesium
- ✓ Enhances hydration by restructuring water molecules
- ✓ Deliver the smoothest, freshest taste possible

# Negative ORP: Water That Heals, Not Harms

Ordinary tap water can contribute to oxidative stress in your body, accelerating aging and making you more prone to illnesses.

iLiv Water is designed differently. With its naturally negative ORP, it doesn't just hydrate—it protects.

- ✓ Reduces cellular oxidation, **preventing premature aging**
- ✓ **Supports heart and brain health** by neutralizing harmful free radicals
- ✓ **Enhances metabolism and detoxification**, keeping your body fresh and energized
- ✓ Helps **prevent diseases like diabetes, Alzheimer's, and cardiovascular conditions**

💡 Your body fights oxidation every day.  
Give it the water that helps win the battle.

# Your Body's Best Defense Against Free Radicals

## ? What are free radicals?

Free radicals are the silent enemy inside your body, attacking your cells daily. They come from pollution, processed foods, and even stress—leading to faster aging, weakened immunity, and disease.

💧 iLiv Water fights back. With advanced filtration that removes free radicals, it helps your body stay resilient and healthy.

- ✓ **Boosts metabolism and energy levels**
- ✓ **Prevents oxidative damage, reducing risk of diabetes and heart disease**
- ✓ **Strengthens skin and hair health, keeping you youthful**
- ✓ **Supports brain function, improving memory and focus**

# FAQs

Q

**Why does iLiv Antioxidant Alkaline Water feel different from regular purified water?**

A

iLiv's Crystal Growth Technology replicates the natural purification process found in mountain springs, making the water rich in minerals, crisp in taste, and naturally hydrating.

Q

**How does negative ORP benefit my body?**

A

Water with negative ORP acts as a powerful antioxidant, neutralizing free radicals, slowing the ageing process, and promoting overall well-being.

Q

**Can this water help improve metabolism?**

A

Yes, the enhanced hydration and mineral balance provided by iLiv water support efficient metabolic processes, aiding in digestion, energy utilization, and weight management.

Q

**Does iLiv Antioxidant Alkaline Water help remove toxins?**

A

Yes, by reducing acidic waste buildup and enhancing detoxification, this water helps flush out harmful substances from the body, improving kidney and liver function.

Q

**What makes iLiv's filtration system superior to conventional water purifiers?**

A

Unlike standard filtration systems that strip water of essential minerals, iLiv's advanced technology restores the natural mineral balance, ensuring your water is pure, healthy, and revitalizing.

**iLiv Antioxidant Alkaline Water Purifiers  
harness the power of:**

- ✓ *Crystal Growth Technology for advanced purification*
- ✓ *Essential Minerals & Negative ORP for Antioxidant Protection*
- ✓ *Closest to Natural Spring Water for a refreshing taste*
- ✓ *Smaller Water Clusters for Faster Hydration*
- ✓ *Eliminates Harmful Free Radicals*

**Switch to Superior Water.
